INTRODUCTION

This English textbook for the 8th form continues the English language series, already adopted by the Ministry of Education and science of the Republic of Tajikistan, for forms 3–11 in Tajik secondary schools.

Its main aim is to develop pupil's skills in reading and understanding a variety of texts, both fiction and non-fiction. This is achieved by means of careful translation or by answering questions on the text.

The development of skills in reading and speaking is also an important element in the book. Speech topics are included in accordance with the Foreign Language Program for Tajik Schools.

The book consists of: 72 lessons (72 hours) in total; a list of irregular verbs; an international word list; an English-Tajik vocabulary.

Within the lessons, language material and topics are regularly reviewed and recycled.

Grammar is reviewed and consolidated through practice exercises and creative tasks.

Teachers should enable pupils to practise spoken English using the topics and linguistic material set out in the syllabus.

The book introduces some new topics by which pupils reading and speech skills can be developed. These topics appear in three divisions: A. Social-labour topics, B. Social-cultural topics, C. Social-communicative topics.

Reading is the main skill that a pupil must acquire in the process of mastering the English language in school.

The syllabus for English Language puts reading as the leading language activity to be developed: "by the end of the course, pupils must be able to read easy texts of social-political content, general science and fiction".

Reading is one of the practical aims of teaching a foreign language in school. But reading is not only an aim in itself, it is also a means of learning a foreign language.

The more pupils read, the better is their retention of linguistic material.

Reading is of great educational and cultural importance, too. Through reading texts in English, pupils acquire a substantial knowledge of the English-speaking peoples, their social order, history and culture. Therefore the content of the texts in the book deals with not only natural science matters, but also with ones which inform pupils about people in Great Britain and their way of life.

As the course proceeds, reading in senior classes becomes increasingly intensive. This should not however entail an excessive decrease in the rate of progress. The progress of a class depends, among other factors, upon the ability of the pupils, the length of the lesson, the interest of the pupils, their number in the class and the teacher's methods.

In teaching pupils to read, much attention should be given to develop their ability to guess meanings. One of the

best ways to develop this skill is to familiarize pupils with the text either during the lesson or by setting reading for homework. “Pre-questions” may be helpful. They direct pupils thoughts when they read the text. If the work is done during the lesson, the teacher can prompt pupils to guess new words.

While mastering skills and habits through studying topical texts, pupils can successfully develop other English language skills. These can be worked on through the text, in the following sequence:

A. Developing listening

The teacher reads out or retells the first paragraph of the text (8–10 sentences) using the new words. (Their meaning in translation should be written on the blackboard.) The pupils understanding is checked by asking questions on the passage they heard.

B. Developing speech habits and skills

In order to make pupils master their habits and skills, the teacher administers the pupils questioning as follows:

- pupil 1: begins the second paragraph of the text reading the first sentence;
- pupil 2: translates the sentence;
- pupil 3: put the first question on the sentence;
- pupil 4: answers the question;
- pupil 5: put the second question on the sentence;
- pupil 6: answers the second question.

In this way the pupils learn three or four sentences. The next paragraph (3–4 sentences) is learned in the same way.

C. Developing speech skills

1. Speaking in a chain: the pupils retell the text they have learned in a chain around the class.

2. Speaking in pairs: pupils talk about the text sitting at their desks.
3. Silent reading: pupils read the last paragraph (5–6 sentences) silently, then answer the teacher's questions on it.

The pupils understanding of the text should be checked by asking questions about it.

There are some structural-information exercises and semantic-communicative ones which must be practised in the senior forms. Both kinds of exercises should be used by the teacher in lessons. The use of semantic-communicative exercises should prevail. Pupils carry out structural-information exercises by reading them aloud and silently to extract information from the text. These are examples of structural-information exercises:

- Read the following sentences and guess the meaning of the words you don't know.
- Read the sentence . . . and explain the use of . . .
- Break some complex sentences into shorter ones.
- Find the sentence which summarises the paragraph.

Pupils carry out semantic-communicative exercises by reading the text silently in the lesson or when comprehension of the text read at home is checked.

At senior level the following methods are recommended:

- Answer the questions. (All types of questions may be used, however, "wh"-questions are desirable.)
- Tell your desk-mates (what, who, when, where, why).
- Read out the words (sentence or paragraph) which substantiate your answer.
- Find the words (or sentences) which have given you some new information.

- Read the paragraph (when, where, why, etc).
- Translate the text. (This may be done either in English or in Tajik, depending on the material used.)

To assist in developing the pupils speech skills, situations are set up in this book that are as natural and realistic as possible. Listening and speaking activities are made meaningful by placing them in real environments which will be familiar to the pupils.

Practical exercises are almost exclusively directed towards mastery of structure, phraseology and topical vocabulary. Close attention has been given to ensuring that every speech element which pupils will be required to reproduce should be listened to, spoken, read and written and that the teaching of English should occur in that order. The reason, of course, is clear. The speech elements being practised are those which pupils need as both producers and receivers of language. The speech elements and words introduced on the receptive level are included in the texts for extra reading and have been kept to a minimum so that pupils can focus on being active producers of language themselves.

The content which is presented to pupils should be explained by the teacher whenever necessary. The Tajik language may likewise be used in the listening-speaking activities to check on the pupil's comprehension.

If the situation clearly defines the meaning, no explanation should be needed. Where this is not possible, the teacher may use translation to clarify the meaning.

It is essential to arrange the pupil's questioning bearing in mind that all the pupils should be active in learning and be appraised for it.

For this purpose teachers should use a mark's table. Here is an example: Term 1, Lesson 1.

NAMES	Ex. 1	Ex. 3	Ex. 4 (speaking in a chain)	Ex. 5 (own sen- tences)	Total marks
1.	+	+		+	
2.	+	+		+	
3.	+	+	+	+	
4.	+	+	+	+	
5.	+	+	+	+	
6.	+	+	+	+	
7.		+	+	+	
8.		+	+	+	
9.		+	+	+	
10.		+		+	
11.		+		+	
12.		+		+	

Testing pupils not only demonstrates how much they have learned, but also serves a diagnostic function showing where the pupils have difficulties. Tests reveal where teaching methods may need to be changed and allow teachers to evaluate and improve their own work.

Teachers should test pupils on different kinds of speech practice, including reading, speaking, asking questions, retelling, describing pictures, making up dialogues, etc.

When teachers conduct a pupil's test, this scale of marks may be used: a "5" – more than 80 % correct answers a "4" – from 60 to 79 % correct answers a "3" – from 40 to 59 % correct answers a "2" – less than 39 % correct answers. (Rogova B. V.)

In order to motivate and guide pupils, and to reward their efforts to learn, marks should be valid.

Dear teachers! Be creative and responsible for your teaching! Bear in mind the individual peculiarities of every

pupil and class! Develop a specific approach to every pupil! Good luck! The authors believe that this textbook will contribute to English Language teaching in Tajik Schools. The authors would be greatly indebted for any critical remarks from school teachers.

Foot-notes:

A) While writing a lesson plan, the teacher puts pluses in column remember whom he (she) is going to question. During the process of the lesson the teacher puts marks instead of pluses. The quantity of pupils to be questioned may be increased.

B) The work with a pupil-on-duty:

a) after the teacher's questions: who is on duty today? who is absent today? Is there a piece of chalk? etc.

b) a pupil-on-duty may put questions to the pupils: what is the weather like today? Do you like it? Is it raining today? etc.

c) it is very interesting for the pupils to listen to a story or a joke told by the pupil-on-duty after the retelling of some story the pupil-on-duty have a talk on it or put question.

The stories the pupils may take the topics covered only in a funny way. Let's talk about holidays and this year in school.

LESSON 1

Competence: Pupils should read the given text accurately, understand the meaning of the text and retell it.

Салоҳият: Хонандагон бояд матнҳои додашударо бехато хонанд, фаҳманд ва нақл карда тавонанд.

ticket ['tɪkɪt] – чипта	liner ['laɪnə] – ҳавопаймои
booking-office ['bʊkɪŋ 'ɒfɪs] – хазина, касса	калон
leave [li:v] – тарк кардан	sharp [ʃɑ:p] – тез
clerk [kɫɑ:k] – мансабдор	packing ['pækɪŋ] – борбандӣ
	airport ['eəpɔ:t] – фурудгоҳ

STARTING ON A TRIP

I am leaving our town for Khujand. That is already settled. I am going there by air and the ticket is in my pocket. This morning I've been to the booking-office. I didn't know when I would leave.

In the ticket office I asked the clerk for a seat on a TU-154 air plane.

I also found out when the plane would leave. It leaves at 12 sharp.

So I have an hour and a half for packing. But I'll do it very quickly. As a matter of fact, I have only one suitcase to pack.

I wanted to go to Khujand last year, but I couldn't. Oh, it's already half past ten! The airport is quite a long way from home.

Discussion

– Let's talk about holidays

1. Read and talk about the text. First work in pairs, then retell it.
Матнро хонед ва нақл кунед.

SEPTEMBER

September comes from the Latin word “septem” which means seven. In today’s calendar, September is the ninth month. But in the old Roman calendar it was the seventh month. The Anglo-Saxons called it “Barley Month”.

2. Work in pairs¹. Read and act the dialogue. Дунафарӣ кор кунед. Хонед ва муколамаро иҷро намоед.

A: Hallo, Daddy! – C: Hallo there!

A: Daddy, this is Cliff. C: Glad to meet you. How do you do sir?

D: How do you do, sir?

3. Read, translate and learn this proverb. Хонед, тарҷума кунед ва зарбулмасалро азёд кунед.

“Well begun is half done.”

4. Answer these questions using no less than two sentences in your answers. Ба саволҳои зерин бо ду ҷумла ё бо ҷумлаҳои бештар ҷавоб гардонед.

1. Where and how did you spend your summer holidays?
2. Are you glad to see your friends again?
3. What form are you in?
4. Will this year be difficult for you?
5. What school subjects are the most difficult for you? Name them.
6. Which of them are you interested in?
7. What optional courses are you going to take and why?

5. Make up sentences using the following words. Бо калимаҳои зерин ҷумла тартиб диҳед.

A. To travel (to go) by air (land, sea, railway, bus, car).

¹ When you see “Work in pairs”, it means that all the pupils should work together in chorus..

B. To book a ticket for the	<table border="0"><tr><td>passenger</td><td rowspan="4"> </td><td rowspan="4">train to...</td></tr><tr><td>express</td></tr><tr><td>fast</td></tr><tr><td>mail</td></tr></table>	passenger		train to...	express	fast	mail
passenger		train to...					
express							
fast							
mail							

6. Answer these questions. Ба саволҳо ҷавоб диҳед.

1. Do you like travelling?
2. Do you enjoy travelling by air (sea, railway, bus)?
3. You usually book seats in advance, don't you?
4. Do you think travelling is a good way of spending one's holidays?
5. Do you like to see your friends off?
6. Is it convenient to take a suitcase when you go hiking?

7. Write ten or twelve sentences about your holidays. Дар бораи таътилатон 10 ё 12 ҷумла нависед.

8. Read and memorise the information in this text. Хонед ва маълумоти дар матн бударо дар хотир нигоҳ доред.

THE ENGLISH LANGUAGE

The English language is a native language of the United Kingdom and Great Britain. English is spoken in the United States of America. In Canada people speak English, too. English is also spoken in Australia, New Zealand and South Africa. In many other places in the world, English is spoken and understood, for example in India, China, Singapore and Gibraltar.

LESSONS 2–3

Competence: Pupils should read the given text accurately, understand the meaning of the text and retell it.

Салоҳият: Хонандагон бояд матни додашударо беҳато хонанд, фаҳманд ва нақл карда тавонанд.

PROFESSIONS, JOBS

When a person finished school or university, he starts his career. It's not easy to choose the right profession. It might also be hard to find a good job with a high salary.

I always believed that you should choose the profession which is interesting to you. It is impossible to achieve success in something that you don't like. If you have to do something that is boring or makes you unhappy day after day, your life becomes miserable. I think that one of the reasons why a lot of people are poor and depressed is because they work only for money. Even if it is good money, but the job is very hard, eventually you would start to hate your job.

It's not important what you do, but it's a lot more important if you get joy and energy from what you do.

Discussion

– Let’s talk about “Choosing profession”

1. Read and translate the verbs and nouns. Make up your own sentences using v+n. Хонед, феълҳо ва исмҳоро тарҷума кунед. Бо истифодаи феъл ва исмҳои зерин ҷумла тартиб диҳед.

to ski – a skier	to keep – a keeper
to learn – a learner	to play – a player
to invent – an inventor	to act – an actor

2. Talk about your holidays, first work in pairs, then speak in a round table. Дар бораи таътилатон нақл кунед, аввал бо ҳамдигар ва баъд дар гурӯҳ муҳокима кунед.

3. Answer the questions using the following words. Бо истифода аз калимаҳои зерин ба саволҳо ҷавоб диҳед.

a house, a key, shoes, fruit, a dress, a suit

1. He is a shoemaker. What can he make?
2. She is a dressmaker. What can she make?
3. She is a tailor. What can she make?
4. He is a bricklayer. What can he make?
5. He is a locksmith. What can he make?
6. He is a gardener. What can he grow?

4. Say where these people work. Бигӯед, ки ин одамон дар куҷо кор мекунанд.

workers, collective-farmers, drivers, a dancer, agronomists, vets (veterinaries), a singer, mechanics, postmen, librarians, teachers, doctors, clerks, nurses, a farmer, a painter, a miner (at the factories, on the collective-farm, at the theatre, at the mills, at the mine, at the post office, in the fields, at the office, in the hospital, at school).

5. Complete the sentences. Ҷумлаҳоро ба итмом расонед.

EXAMPLE: I do not want to be a clerk, but...

I do not want to be a clerk, but I want to be a farmer.

1. I don't want to be a teacher of French, but. . .
2. My brother didn't want to be a mechanic, but. . .
3. Lola's brother doesn't want to be a mechanic, but. . .
4. Ali doesn't want to be a clerk, but. . .
5. He didn't want to be a vet, but. . .
6. Saida doesn't want to be a singer, but. . .
7. She doesn't want to be a printer, but. . .

6. Work in pairs. Read and act this dialogue. Then make up your own dialogues. Дунафарӣ кор кунед. Хонед ва муколамаро иҷро кунед. Баъд муколамаи худро тартиб диҳед.

A: What's your profession, young man? – B: I am a driver.

A: And what else can you do? – B: I can work as a turner, too.

7. Read and memorise the words. Хонед ва калимаҳоро дар хотир нигоҳ доред.

Suggest that someone in the group selects a number but does not tell it to the leader. The leader proceeds to find out what the number is by giving mathematical instructions. Suppose the number is 23, the instructions work like this:

Double it (46)

Add 1 (47)

Multiply by 5 (235)

Add 5 (240)

Multiply by 10 (2400)

The leader is told the final number and subtracts 100 from it (2300), strikes off the last two digits and announces the number – 23!

8. Answer the question. Ба савол ҷавоб диҳед.

In what countries do people speak English?

9. Write down the answers to these questions. Ба ин саволҳо ҷавоб нависед.

1. How big is your family?
2. What is your full name?
3. When and where were you born?
4. How old are you?
5. What is your nationality?
6. Have you a father, a mother, brothers and sisters?
7. What are their professions?
8. Are your sisters and brothers married?

10. Read and be ready to retell this joke. Хонед ва барои нақли ҳазли мазкур омода бошед.

“Mummy, I’ve got a stomach ache,” said six-year-old Mary.

“That’s because your stomach is empty,” answered her mother. “You had practically no lunch today. You would feel much better if you had something in it.”

In the evening Father came home from his office and complained of a headache. That’s because your head is empty,” said little Mary. “You would feel much better if you had something in it.”

stomachache ['stʌməkeɪk] – шикамдард

empty [emptɪ] – холӣ

to complain of a headache [tə kəm'pleɪn əv ə 'hedeɪk] – аз дарди сар шикоят кардан

11. Write 8-10 sentences about “My future profession”. Дар бораи “Касби ояндаи ман” 8-10 ҷумла нависед.

LESSON 4

Competence: Pupils should read the given text accurately, understand the meaning of the text and retell it.

Салоҳият: Хонандагон бояд матнҳои додашударо бехато хонанд, фаҳманд ва нақл карда тавонанд.

TWO GENTLEMEN OF VERONA

It was summer. A friend and I were driving from Switzerland to the lovely old Italian city of Verona. Just outside the city, two small boys stopped us. They were selling strawberries that looked delicious against the green leaves in the boy's baskets.

“Don't buy them,” our driver said. “You will find better strawberries. Besides ...” His face showed that he did not like the two boys.

It was true that their clothes were dirty and poor-looking. But as we looked at those two thin children with their serious dark eyes, we wanted to know more about them.

My friend spoke to the boys and found out that they were brothers. Nicola was thirteen. Jacopo, the smaller one, was almost twelve. We bought their biggest basket of strawberries and then continued towards Verona.

The next morning, coming out of the hotel, we saw the two boys again. They were beside the fountain in the public square, shining the shoes of men who passed by. They were very busy, but they said “hello” to us in a friendly way.

"I thought you sold strawberries," I said.

"We do many things, sir," Nicola answered seriously. He looked at us hopefully. "We sometimes guide people through the city, showing them places of interest."

"All right," I smiled. "You can guide us. Let's go."

As they guided us through the city, I continued to study these boys. They were children, yes, and they acted like children in many ways. But their faces were serious, and they both had an appearance of purpose that one does not often find in small boys.

(Adapted from Reader's Digest Readings.)

1. Answer to these questions using no less than two or three sentences for each answer. Бо ду ё се ҷумла ба саволҳои зерин ҷавоб гардонед.

- a) From what country were the two men driving, and where were they going to?
- b) What were the two boys selling?
- c) What was their appearance?
- d) What did the boys do to earn money?

2. Learn the paragraph "We are alone ... to pay for food and medicine" by heart. Сархатти "We are alone ... to pay for food and medicine"-ро аз ёд кунед.

3. Write down a translation of the last two paragraphs. Ду сархатти охириро тарҷума кунед ва нависед.

LESSONS 5–6

Competence: Pupils should read the given text accurately, understand the meaning of the text and retell it.

Салоҳият: Хонандагон бояд матнҳои додашударо беҳато хонанд, маънои онро фаҳманд ва нақл карда тавонанд.

MY FRIEND'S STORY

A few weeks ago our family moved to a new flat and gave a housewarming party. Our new flat is fine and we all like it very much.

The flat consists of three rooms, a kitchen, a bathroom and a toilet. All the modern conveniences are in our flat: running water, gas, rubbish chute, air conditioning, to say nothing of electricity and central heating.

My granny always gives me some work to do in the house. It may be dusting, shaking and beating the mats and carpets, or cleaning them with the vacuum cleaner, polishing the floor, going to the shop and so on.

We live on the fifth floor. There is a shop on the ground floor. There is a lift in our block of flats. We live in Rudaki Street in a new block of flats.

1. A) Read and translate these verbs. Make up sentences in the Present Continuous and Past Indefinite Tenses. Феълҳои зеринро хонед ва тарҷума кунед. Бо замони ҳозираи давомдор ва замони гузаштаи номуайян ҷумла тартиб диҳед.

to break – broke – broken – breaking
 to bring – brought – brought – bringing
 to build – built – built – building

B) Ask as many Wh- questions as you can get information about these statements. Ҳарчи бештар саволҳои Wh-ро бо мақсади маълумоти пурратар пайдо намудан дар бораи изҳороти зерин гузored.

She brought. He is building.

2. Work in pairs. Read and act this dialogue. Then make up your own dialogue. Дунафарӣ кор кунед. Муколамаро хонед ва амал кунед. Баъдан муколамаи худро тартиб диҳед.

A: Is Mary busy at the moment? – B: Yes, she is writing letters.

A: And what about Henry? – B: He is watching television.

3. Make up interrogative sentences following the example. Аз рӯйи намунаи зерин ҷумлаи саволи тартиб диҳед.

EXAMPLE: Pupil 1: We were in the factory.

Pupil 2: When were you in the factory?

Pupil 3: We were there last Monday.

1. She was a nurse in the kindergarden.

2. Ali was in Moscow last year.

3. It was fine weather last month.

4. Describe the pictures, work in pairs. Бо ҳам кор карда, расмҳоро шарҳ диҳед.

a kitchen

5. Write a composition on “My flat (house, verande, kitchen, toilet, bedroom, hall)”. Дар мавзуи “My flat (house, verande, kitchen, toilet, bedroom, hall)” иншо нависед.

6. Read the text and answer the questions. Матнро хонед ва ба саволҳо ҷавоб гардонед.

Five or six centuries ago, houses in London did not have numbers but signs to distinguish them from each other. When giving his address a man would say, “I live in Bedford Street. There is a sign of two peacocks over the entrance to my house. At night you will see two lanterns over my balcony.”

1. What signs did houses in London have to distinguish them from each other five or six centuries ago?
2. How could a person find an address?

entrance [entrəns] – даромадгоҳ	to distinguish [tə dɪs'tɪŋwɪʃ] – фарқ кардан
signs [saɪnz] – нишона	lantern ['læntən] – ғонус,
peacock ['pi:kɒk] – товус	чароғ

ISAAC NEWTON

(PART 1)

The outstanding genius of the 17 th century and one of the most prominent scientists of all time, Isaac Newton, was born on the 25th of December, 1642 in a small village in Lincolnshire. After school, Newton

entered Cambridge University where, later on, he lectured on mathematics for more than thirty years.

At the University, Newton displayed extraordinary mathematical and scientific ability.

During the plague in England, in 1665–1666, Newton left Cambridge and spent eighteen months at his home in the country.

In this short time he carried out practically all of his experiments on light and colour, formulated the laws of motion and started the chain of investigations which led to the formulation of the law of universal gravitation.

1. Answer to these questions using more than one sentence.

Ба саволҳои зерин бо ду-се ҷумла ҷавоб гардонед.

1. When was Isaac Newton born?
2. Where did Isaac Newton study?
3. What extraordinary abilities did he display at the University?
4. Why did Newton spend eighteen months at home in 1665-1666?
5. What did he do at home? What discoveries did he make during this short period of time?

2. Read and memorise these verbs. Феълҳои зеринро хонед

ва дар хотир нигоҳ доред.

lay – laid – laid leave – left – left

lead – led – led find – found – found

3. Ask as many Wh-questions as you can to get information about these statements. Ҳарчи бештар саволҳои Wh-ро бо мақсади маълумоти пурратар пайдо намудан дар бораи изҳороти зерин гузored.

He left. She has found.

4. Read this text attentively. Матни зеринро бодикқат хонед.

SCIENTIFIC DISCOVERIES

Isaac Newton made many scientific discoveries and inventions throughout his career. Here is a list of some of the most important and famous ones.

Gravity – Newton is probably most famous for discovering gravity. Outlined in the Principia, his theory about gravity helped to explain the movements of the planets and the Sun. This theory is known today as Newton's law of universal gravitation.

Laws of Motion – Newton's laws of motion were three fundamental laws of physics that laid the foundation for classical mechanics.

Calculus – Newton invented a whole new type of mathematics which he called "fluxions." Today we call this math calculus and it is an important type of math used in advanced engineering and science.

Reflecting Telescope – In 1668 Newton invented the reflecting telescope. This type of telescope uses mirrors to reflect light and form an image. Nearly all of the major telescopes used in astronomy today are reflecting telescopes.

5. Complete the following sentences. Ҷумлаҳои зеринро пурра кунед.

1. The outstanding genius of the 17th century and one of the most..
2. Newton was born on. . .
3. At the University, Newton displayed. . .

GALILEO

Long ago a Greek, Democritus, said that all objects in a vacuum fall at the same speed. He did not have a vacuum, but he was right. The air makes a difference. If a heavy weight and a piece of paper fall together through the air, the heavy weight reaches the ground first. The air has some resistance, and it makes the paper fall slowly; but if there was no air, the paper would fall quickly.

Aristotle said that heavy things fall faster than light things; but he was wrong.

Most of the later scientists believed what Aristotle had said. This remained true until the time of Galileo (1564–1642), the Italian scientist. Galileo did not believe Aristotle. He went to school at Vallombrosa, which is a place near Firenze (Florence), Italy. He tried to learn science there, but he did not like it. He went to the university of Pisa to continue his studies. There is a famous tower at Pisa. It does not stand straight up, but leans a little more each year. Some scientists believe that it will soon fall down.

Galileo climbed to the top of the Leaning Tower, and from there he reached the ground at the same moment. The scientists who were watching were very surprised. This did not agree with Aristotle's rule.

Galileo believed that scientists should always do experiments. He said that they should not only sit in universities and talk; they ought to do something. They ought to watch the results of their experiments, and describe them honestly. Then they could learn more about science.

Many people at that time believed that the Earth never moved. The other planets and the sun appeared to move round the Earth, and they believed that the Earth was the centre of the universe. Ptolemy had thought this many years before, and it appeared to be true. Nobody knew then that the Earth was an unimportant planet.

1. Translate and learn the first paragraph. Сархатти якумро тарҷума ва азёд кунед.

2. Answer the questions. Ба саволҳо ҷавоб гардонед.

- a). Where did Galileo go to school?
- b). What experiment did Galileo do?
- c). What else did Galileo make?
- d). How did Galileo spend his last years?

3. Write down, translation of the last two paragraphs. Тарҷумани ду сархатти охиrho нависед.

LESSON 9

ISAAC NEWTON

(PART 2)

The law of universal gravitation states that every particle of matter in the universe attracts every thing with a force which is proportional to the product of their masses and universely proportional to the square of the distance between them.

Newton showed that this great principle was the consequence of his laws of motion and Kepler's laws of planetary motion: it therefore represented the syntheses of the total knowledge in the fields of dynamics and astronomy up to that time. But its meaning and application are not only true for our solar system, it is a universal principle. Newton discusses this subject in his renowned book, Principia.

Newton died in 1727 when he was 85 years old.

1. Read and memorise these verbs. Феълҳои зеринро хонед ва дар хотир нигоҳ доред.

hide – hid – hidden

speak – spoke – spoken

2. Ask as many Wh- questions in order to get information about these statements. Ҳарчи бештар саволҳои Wh-ро бо мақсади маълумоти пурратар пайдо намудан дар бораи изҳороти зерин гузored.

He has hidden. She has shown.

3. Answer the questions using more than one sentence. Ба саволҳои зерин бо ду-се ҷумла ҷавоб гардонед.

1. What does the law of universal gravitation state?
2. What was the great principle that Newton showed?
3. What principle did Newton discuss?
4. When did Newton die?

4. Complete the following sentences. Ҷумлаҳои зеринро пурра намоед.

1. The law of universal gravitation states that every particle of matter in the universe.....
2. Newton died in.....

5. In pairs, talk about the text. Дунафарӣ дар мавзӯи матн гуфтугӯ кунед.

6. Talk about the text around the table. Дар атрофи миз нишаста, дар мавзӯи матн суҳбат кунед.

7. What do you know about the moon? Дар бораи Моҳтоб чӣ медонед?

Here are some statements about it. Some of them are true and some are not. Read each statement and decide whether it is true or not. On a sheet of paper write down your answers, "true" or "false".

1. There are many forests on the moon.
2. Clouds often hide the surface of the moon.
3. Millions of meteors hit the moon.
4. A day on the Earth is twice as long as day on the moon.
5. Stars can be seen in the daytime on the moon.
6. The sky looks blue from the moon.
7. Your hearing will be sharper on the moon.
8. The moon is 3,000,000 miles from the Earth.
9. Moonlight is really reflected sunlight.
10. The moon circles the Earth once a week.
11. People from some other planet make buildings there

Whether it is true or not? – Оё ин дуруст аст ё не?
Your hearing will be sharper – Шунавоии шумо беҳтар хоҳад шуд.

9. Read the text and write down five Wh questions about it.
Матнро хонед ва ба он панҷ саволи Wh гузоред.

absent-minded [æbsent maɪndɪd] – фаромӯшхотир	philosophical [fɪləsəfɪkəl] – фалсафӣ

THE ABSENT-MINDED PHILOSOPHER

One day, Newton was absorbed in his profound philosophical meditations, when his maidservant entered his study. She brought an egg which she intended to boil on a spirit lamp in Newton's presence.

Newton, who wanted to be left alone, told her to leave. "I shall boil the egg myself," he said. The maidservant put the egg on the table beside Newton's watch and said that the egg must not be left in the boiling water more than two and a half minutes.

When the servant returned, she found Newton standing at his table looking attentively at the egg, which he held in his hand, while his watch was being boiling in the little saucepan over the lamp.

AFTER THE THUNDER

The thunder crashes and the first drops of rain fall on the dusty grass. A clap of thunder, another clap, and the rain falls heavily. The rain cools the air and lays off the dust. The grass and the foliage on the trees are green again. All the plants are refreshed, everything looks fresh and bright. The river is glittering in the sun, the sea is calm. What glorious weather!

And if we think that this fine weather will last we say, “We are in for spell of fine weather”, or, “We are in for a fine spell”.

1. Read, translate and memorise these words. Ин калимаҳоро хонед, тарҷума кунед ва дар хотир нигоҳ доред.

3. Ask questions following the examples. Ба намуна нигоҳ карда савол гузored.

A. Example: It sometimes snows in April. Does it snow in April?

1. It often rains in September.
2. It often snows in February.
3. It always rains in May.
4. It sometimes snows in October.

B. Example: It often rains. When does it often rain?

1. It sometimes snows.
2. It always snows.
3. It always rains.
4. It often snows.
5. It sometimes rains.

5. Tell the text “The absent minded philosopher” in a chain around the class. Матни “The absent minded philosopher”-ро бо навбат дар синф нақл кунед.

6. Write down your answers to these questions. Ба саволҳои зерин ҷавоб нависед.

1. Is summer a pleasant season?
2. Does the sun shine brightly in summer?
3. Is summer the hottest season of the year?
4. Are the days longer than the nights in summer?
5. What is the longest day of the year?

6. Why is summer a pleasant season?
7. Does it rain in summer in our republic?

7. Read this text and be ready to retell it. Матнро хонед ва барои нақл кардани он омода бошед.

AUTUMN

After summer, comes autumn. The autumn days are shorter than in summer. The weather is not bad, but it begins to rain. But still there are a lot of fruit and vegetables. It is the hardest time for the collective-farmers and workers on state farms. November is the coldest month of autumn. The sky is often overcast with clouds and we often have rainy weather.

THE STORY OF BOTTLE HILL

(An Irish legend)

Once upon a time, in a little cottage, there lived a farmer, whose name was Mick. He worked very hard, but he was very poor. His wife did what she could to help him, as their children were too young to work in the fields. The poor woman looked after the house, milked the cow, boiled the potatoes, and took eggs to market. At the end of the summer they had hardly had enough money to pay the landlord.

Then came a bad year. Day after day the rain poured down. Their small crop was spoiled; the chickens died. So they had no money to pay the landlord.

"What can we do, Molly?" said the farmer sadly to his wife.

"You must take the cow to the market, and sell her," said Molly.

"I believe you are right, Molly. I'll go tomorrow."

Early the next morning he took his stick in his hand, and drove his cow slowly along the road. It was a fine day and the sun shone brightly on the fields. After six long miles the farmer came to the top of the hill, which is now called Bottle Hill, but that was not the name of it at that time.

Just there he met a man.

"Good morning," said the man.

"Good morning," said the farmer, looking at the stranger who was a very little man. His face was yellow and his nose was as sharp as a bird's beak.

Mick did not like the look of the little man. He drove his cow faster along the road, but the little man followed him like a shadow, without making any noise. The farmer wished he had not come out that day but had stayed in his cottage. At that moment he heard the little man's voice.

"Where are you going with the cow, my honest man?"

"To the market," said Mick.

"Are you going to sell her?" asked the stranger.

"Of course, I am going to sell her," said Mick.

"Will you sell her to me?"

Mick was afraid of having anything to do with the little man, but he was afraid to say no.

“What will you give for her?” he asked.

“I’ll give you this bottle,” said the little man, pulling a bottle from under his coat.

The farmer looked first at him and then at the bottle, and in spite of his fear he began to laugh.

“Laugh if you wish,” cried the little man angrily. “I tell you this bottle is better for you than all the money you will get for your cow at the market.” Mick laughed again. “Do you think I am so silly as to give you my good cow for an empty bottle? What will Molly say?”

“Take the bottle, Mick, and give me the cow.”

“How do you know my name?” asked the farmer.

“Never mind,” answered the little man, and then he said with a smile, “I like you, Mick. Do as I tell you, or you may be sorry for it. Your cow may die before you get to the market. There may be many cows at the market, and you will get a low price. Perhaps you will be robbed on your way home. So take the bottle, and when you get home, do just as I tell you.”

1. Write out translation of the first paragraph and learn it by heart. Тарчумаи сархатти аввалро нависед ва дар ёд нигоҳ доред.

2. Talk about following point. Дар мавзуи зерин гуфтугӯ кунед.

а) Mick’s family; Bottle Hill; The bottle

3. Make up ten questions on the text “The story of bottle hill”. Ба матни “The story of bottle hill” даҳ савол гузоред.

4. Retell the text in summary. Матнро мухтасар нақл кунед.

LESSONS 13–14

Competence: Pupils should read the given text accurately, understand the meaning of the text and retell it.

SPRING

Spring is the most lively season of the year. People (especially kids) are fond of this time because of its beauty, slight cool and fresh weather. It is the queen of all seasons of the year and is considered to be the favourite season of poets. It comes after winter season and before summer season.

It is still cold in March. In my country it rains a lot and sometimes snows. However, bit by bit we can see the first spring flowers appearing on the land, among them are lilies of the valley, daffodils, violets and snowdrops. The nights become shorter and days get longer. March is also well-known by the celebration of March 8 or the International

Women's Day. On this day women relax and enjoy their holiday. Men give them nice presents and try to do everything to make them happy.

April is a warm month. Although, it is a rainy season, the weather is not cold anymore. On the first day of April we have Fool's Day. It's a holiday of laughter. It's a time, when your friends can pin on you and play pranks on you or tell funny jokes.

1. Read, translate and learn this proverb. Ин зарбулмасалро хонед, тарҷума кунед ва азхуд намоед.

It is hard sailing when there is no wind.

Барғҳои дарахт бе шамол намеҷунбанд.

2. Read these sentences. Make up your own sentences. Ҷумлаҳои зеринро хонед. Ҷумлаҳои худро тартиб диҳед.

A. Is there a lemon on the plate?

Are there grapes on the table?

Are there apples on the apple trees?

B. There is no India rubber in my pocket. There is a ruler in my bag.

There are no cucumbers in the basket.

3. Read, translate and memorise these sentences, then ask each other. Ҷумлаҳои зеринро хонед, тарҷума ва азхуд карда, сипас аз якдигар пурсед.

What a lovely day!

Oh, it's lovely outside, isn't it?

How cold it is!

How hot it is!

How dark it is!

Look! What a beautiful rainbow there is in the sky.

4. Ask and answer the questions about the weather. Оид ба боду ҳаво савол диҳед ва ба саволҳо ҷавоб гардонед.

What is the weather like today?

The weather is – fine, fair, bad, nasty, hot, warm, cool, cold, frosty,
clear, sunny, gloomy,
It is – cloudy, foggy, calm, windy, stormy, rainy.

5. Read and act this dialogue. Then make up your own dialogues.
Муколамаи зеринро хонед ва иҷро кунед. Баъдан муколамаҳои худро тартиб диҳед.

A: It is going to rain this afternoon

B: How do you know?

A: I heard the weather forecast on the radio.

B: Yes, it looks like it.

6. Talk about summer and autumn. Work in pairs. Дар бораи фаслҳои тобистон ва тирамоҳ суҳбат кунед. Дунафарӣ кор кунед.

7. Write down your answers to these questions. Ба саволҳои зерин ҷавоб гардонед.

1. Which is the coldest season in the year?
2. Does it often snow in winter?
3. Do you like it when it snows?
4. Is there much snow on the ground?
5. Is it pleasant to go for a walk when it is not very cold?
6. What do you wear in winter?

8. Read and be ready to retell this text. Матнро хонед ва барои нақли он омода шавед.

THE WONDERS OF THE SEA

The sea! Always changing but always beautiful. The sea, one of the greatest wonders of the world! Our life, weather, atmosphere, soil – all depend upon the sea. There are many things about the ocean that people do not understand; but we know that water is life – all the life on the Earth depends upon water.

Where did the sea come from? What makes waves? Why is sea water salty? What gives it colour? When we look at the changing waters of the sea, each wave and ripple bring us another question.

Scientists think that only the planet Earth has oceans. The sea makes our climate neither very hot nor very cold.

Water taken up from the ocean by evaporation² returns to the land in the form of rain and snow. It fills the rivers and springs on the land.

Discussion

What do scientists think about the planet earth and the sea?

1. Read these sentences than make up some of your own. Ҷумлаҳои зеринро хонед ва якчанд ҷумла тартиб диҳед.

There are many vegetables at the market.

There are many beautiful flowers in the fields.

There is a lot of bread on the plate.

There is a lot of milk in the glass.

2. Read and translate these words. Ин калимаҳоро хонед ва тарҷума кунед.

adj + ness

happy – happiness

weak – weakness

lazy – laziness

yellow – yellowness

glad – gladness

green – greenness

rich – richness

bright – brightness

3. Read and act this dialogue. Then make up your own dialogue. Муколамаро хонед ва иҷро намоед. Баъдан муколамаи худро тартиб диҳед.

A: What lovely weather we are having! I'm so glad we have come to the country.

B: So am I! How fresh the air is here.

A: Oh, yes. It's wonderful here.

4. Answer these questions. Ба ин саволҳо ҷавоб диҳед.

1. What kind of summer (winter, spring, autumn) do we usually have in our republic?

2. What season do you like best of all? Say why.

² Water is taken up from the ocean by evaporation – Барфу борон аз буғи баҳр пайдо мешавад.

5. Use the correct word. Калимаи дурустро истифода баред.

1. We all know about Ali's (lazy, laziness).
2. The USA is a (rich, richness) country.

THE STORY OF BOTTLE HILL (Part 2)

Next day Mick went to the market, sold a gold dish and gave the money to the landlord.

The landlord asked Mick how he had become so rich, and the farmer told him about the fairies and the magic bottle. The landlord offered him a lot of money for the bottle, but Mick did not want to sell it. At last the landlord offered to give him his farm for the bottle. Mick thought he would never need any more money, and agreed.

But the farm was not very good. Mick became poorer and poorer, until at last he had nothing left but one poor cow.

One morning he drove his cow again to the market. When he reached the top of the hill, he stopped to watch the sunrise.

“Well, Mick,” said a voice behind him. “I told you that you would be a rich man.”

The farmer looked around and saw the little man whom he had met there before.

“Indeed, I was rich, but now I am poor again,” he said. “If you have another bottle, here is the cow for you.”

“And here is the bottle,” said the old man, smiling. “You know what to do with it. And now good-bye.”

“Good-bye,” said the farmer. “Good luck to you! Good luck to the big hill! It lacks a name, so I will call it Bottle Hill!”

As soon as he reached his cottage and saw Molly, he cried, “I have another bottle!”

In a moment Molly put a clean tablecloth on the table, and Mick, looking at the bottle, cried, “Bottle, do your duty!”

At once two big men with big sticks came out. They hit poor Mick, and his wife, and even the children, until they fell on their knees and begged

for mercy. Then they hid in the bottle again. Slowly the farmer rose to his feet, took the bottle and ran off to his landlord.

WE ARRIVE IN LONDON

London. Victoria station. We are in a hurry to get off the train. Will Harry be there to meet us? Harry Crane is our new friend. He promised to come and meet us in London and show us round. He is a very nice young man, a student of history and art. Here he comes running! “Hello, hello, everybody!” “Hello, Harry!”

A lot of people are getting off the trains, especially the suburban trains. But there are the long-distance trains, too: “Paris”, “Orient Express”, we read on the boards.

Anna is counting the platforms – one, two, three ... there are seventeen. And Leo is reading notices above the platforms: Waiting Room, Restaurant, Booking Office, Light Refreshments. Harry takes us in a taxi to a small hotel.

Discussion

What can you tell about “The wonders of the sea”?

1. Work in pairs. Read and act this dialogue. Then make your own dialogue. Дунафарӣ кор кунед. Муколамаро хонед ва иҷро кунед. Баъдан муколамаи худро тартиб диҳед.

A: Do you often go for a walk in such weather?

B: What do you mean by “such weather”?

A: I mean rainy weather.

B: Oh, no! Surely no!

2. Read and translate these sentences. Ин ҷумлаҳоро хонед ва тарҷума кунед.

1. We use clocks and watches to tell the time.

2. A clock or a watch usually has two hands: the short hand, which shows the hours, and the long hand – minute hand, which shows the minutes.

3. We can say about a watch, “It keeps good time”, which means it is neither slow nor fast.

4. There are 24 hours in a day, 60 minutes in an hour and 60 seconds in a minute.

5. I wind my watch every morning.

6. The time of day is different in different countries, towns and villages if they are not on the same meridian.

3. Make up sentences using the following structures. Бо истифода аз таркибҳои зерин ҷумла тартиб диҳед.

What time is it? (What is the time?)

20 minutes to four (3.40)

a quarter to four (3.45)

It is four o'clock (4.00)

a quarter past four (4.15)

half past four (4.30)

20 minutes past four (4.20)

four a.m. (ante meridian – in the morning)

four p.m. (post meridian – in the afternoon)

4. Work in pairs. Read and act this dialogue. Then make up your own dialogue. Дунафарй кор кунед. Муколамаро хонед ва ичро кунед. Баъдан муколамаи худро тартиб диҳед.

A: What time is it?

B: It is half past nine.

A: But. . . look at the clock! Your watch is twenty minutes slow.

B: Oh, it isn't going correctly at all. I forgot to wind it up!

5. Read the text, translate and talk about it in a chain around the class. Матнро хонед, тарҷума кунед ва онро бо навбат нақл кунед.

6. Complete these sentences following the example. Аз рӯйи намуна ҷумлаҳои зеринро пурра кунед.

EXAMPLE: Someone who works is a . . .

Someone who works is a worker.

1. Someone who destroys is a . . .

2. Someone who prints is a . . .

3. Someone who takes a photograph is a . . .

4. Someone who climbs mountains is a . . .

5. Someone who publishes books is a . . .

6. Someone who invades is an . . .

7. Someone who dreams is a . . .

7. Read the text “Telling the time” then answer these questions.
Матни “Telling the time”-ро хонед ва ба саволҳои зерин ҷавоб диҳед.

1. How did people tell the time in the old days?
2. Who showed how to measure time by a pendulum?

TELLING THE TIME

In the old days, people told the time by the length of the shadow cast on the ground by a post. Sundials, which developed from this primitive method, are used as decorations in gardens today.

A burning rope with knots at regular intervals was another ancient method of telling the time. It took the fire the same amount of time to reach each knot.

One more method of telling the time was an hourglass, which measured the minutes and hours by the amount of time it took for the sand to run into the lower glass.

A water clock works on a similar principle, using water instead of sand.

Later, mechanical clocks were made, but the first ones kept time so badly that it was not worth putting a minute hand on them.

Galileo, the great scientist, born 400 years ago, showed how to measure time by a pendulum and this was correct to a second.

they were correct to a second – онҳо то як сония дақиқ буданд

BALLOONING

When 13-year-old Edward Warren went to the park on June 24, 1784, he expected to keep his feet on the ground. He planned to watch the launching of a hot-air balloon.

The balloon's designer, Peter Carnes, intended to go aloft but he was too heavy: the balloon couldn't carry his weight. Edward volunteered to take his place. The boy went up in the balloon, which was anchored to the ground with long ropes.

Shortly after, a cheering crowd watched Edward come down safely. There are no eyewitness drawings of the actual event but an artist has pictured this idea of the scene. That brief ascent in Baltimore, Maryland, 200 years ago made history. Edward was the first person in the United States to go up in a hot-air balloon. Since then, ballooning has really taken off.

THE WISE MAN OF GOTHAM

How he took the cheeses to market.

There was a wise man of Gotham who was going to sell his cheeses at the market in Nottingham. As he was going down the hill to Nottingham bridge, one of the cheeses fell out of his basket and rolled down the hill.

“Ah, so you can go to the market on your own³, can you?” said the man of Gotham. “Then I’ll send all the others after you. It would be stupid of me⁴ to carry them if they can go by themselves⁵.”

So he put down the basket and took out the cheeses, and he rolled them down the hill one after another.

“You must meet me near the market-place,” he shouted after them, as they rolled away down the hill and out of sight, some of them into one bush, some into another.

When the man of Gotham reached the market-place, there were no cheeses.

“Has anyone seen my cheeses?” he asked all his friends and neighbours.

“Who is bringing them for you?” they asked.

“They are coming on their own. They know the way well enough,” he said. “They were running so fast they’ve probably run past the market”.

A STRANGE SUMMER

The summer of 1816 was the strangest summer in the history of the Northern hemisphere. There was frost in June and snow in August in Europe and North America, and it was so cold that people had to wear coats in July.

In the annals of meteorology the year 1816 has come down to us as “the year without summer”.

STONE TREES

In some parts of the world there are forests of stone or petrified trees. They were once real trees that were buried under tons of rocks, changed into stone, and have now been uncovered again. Such a forest stands in Arizona and is called “The Petrified Forest”.

ONLY ONE EYE

People and animals have two eyes. But there is a fish with only one eye. The fish with one eye lives in the Atlantic Ocean. It has only the left eye.

MUSHROOMS

Mushrooms have been used as food since earliest times. They were known to the Greeks and were much enjoyed by the Romans. Today, not only wild mushrooms are used, but many kinds of field mushrooms are cultivated in many countries. Wild mushrooms, which grow naturally in the fields, pastures and woods, are still found more than cultivated ones. They are cooked in many ways. Some are fried, some are dried and others are pickled.

Do you like to eat fried mushrooms with sour cream or pickled ones?

SCHOOL GARDENS

A great many schools have garden plots where schoolchildren grow vegetables, flowers, decorative plants and fruit trees. The young gardeners thoroughly enjoy planting trees, making flowerbeds, putting in cucumber seedlings and they take much pride in “the fruits of their labour”.

School gardens are a wonderful way to use the schoolyard as a classroom, reconnect students with the natural world and the true source of their food, and teach them valuable gardening and agriculture concepts and skills that integrate with several subjects, such as math, science, art, health and physical education, and social studies, as well as several educational goals, including personal and social responsibility.

GARDENING

The most popular hobby of the British is gardening. Most English people love gardens, their own above all, and this is probably one reason why so many people prefer to live in houses rather than flats. In the suburbs you can see row after row of ordinary small houses. And each house is surrounded by lots of flowers. Many people who have no gardens of their own have patches of land. They spend much leisure time working among their flowers, trees and vegetables. The British take part in numerous flower-shows and vegetable shows with very good prizes. Such shows are very popular in Britain. To

many gardeners the process of growing the plants and taking care of them seems more important than the pleasure of looking at the flowers or the prospect of eating vegetables. In many places a competitive gardener's desire is to grow the biggest cabbages or leeks or carrots. So this is the most favourite hobby of the British people.

Thousands of town dwellers, workers and intellectuals are keen on gardening. They have pieces of land set aside for them out of town. Some of these gardeners grow flowers and vegetables, while others cultivate strawberries, raspberries, gooseberries, blackcurrants and redcurrants.

- Let's talk about fruits.

FARMER

A farmer (also called an agriculturer) is a person engaged in agriculture, raising living organisms for food or raw materials. The term usually applies to people who do some combination of raising field crops, orchards, vineyards, poultry, or other livestock. A farmer might own the farmed land or might work as a laborer on land owned by others, but in advanced economies, a farmer is usually a farm owner, while employees of the farm are known as farm workers, or farmhands. However, in the not so distant past, a farmer was a person who promotes or improves the growth of (a plant, crop, etc.) by labor and attention, land or crops or raises animals (as livestock or fish).

- Let's talk on the topic "Plants and crops".

1. What fruits and vegetables do some gardeners cultivate out of town. Кадом мева ва сабзавотро берун аз кишвар парвариш мекунанд.

2. Read and memorise these words. Калимаҳои зеринро хонед ва дар хотир нигоҳ доред.

NEW LIFE (Part 1)

“Hayoty Naw” is a rich collective-farm. “Hayoty Naw” is situated in the north-east of Dushanbe. It is mainly a grain-growing farm, harvesting hundreds of tons a year. But it also produces a lot of vegetables, meat and milk. The people on the collective-farm are living better and better from day to day.

In the old days, after the harvest was gathered, a mass of peasants went to the towns to look for work. Now, the collective- farmers need not go anywhere to look for work. The farm has tractors and harvesters, so there is enough work to do in the winter months. It also has cows and sheep. The collective-farmers must take care of them not only in summer, but also in winter. Still, the collective- farmers have more free time in winter than in any other season, so winter on “Hayoty Naw” farm is also used for “self-improvement”.

- Let’s talk on the topic “A collective-farm”.

NEW LIFE

(Part 2)

The collective-farmers learn about the latest developments in their refresher courses.

The “Hayoty Naw” farm is often visited by people from other farms and agricultural institutes. They have talks on different problems in agriculture such as how to increase grain production, fertilise land, breed cattle, create pools and ditches to irrigate fields and make full use of the snow in the fields. In this way the “Hayoty Naw” collective- farmers and the visitors learn a lot of useful things. But it is not all work and no play. Sport is popular with the young people. There are film shows in the House of Culture, and concerts and plays are staged by visiting actors and local talents. All the collective-farmers have radio and television. The old traditions are kept up by the farmers.

THE WONDER WORLD OF NATURE

CRA-A-A-ACK went the egg and out crawled this baby wood turtle. A hard bump on the turtle's snout helped it pack its way through the tough shell. The bump is called an egg tooth. The egg tooth disappears a short time after the wood turtle has hatched. Turtles, crocodiles, birds and some lizards and snakes have this handy shell-breaking tool.

How far did the dog run?

When Mrs. Fine, the farmer's wife, was coming home from market, her little dog saw her from its kennel in the farmyard and ran to meet her. Mrs. Fine was exactly a mile from the house when the dog left it. As soon as it reached her it turned round and ran back home again. As soon as it reached home, it turned round and ran back to Mrs. Fine. It continued to run backwards and forwards in this way until Mrs. Fine reached the farm. If she was walking at two miles an hour, and the dog was running at four miles an hour, how far did the dog run in all?

at two miles an hour [ət' tu: maɪls ən aʊə] – дар як соат ду мил
in all [ɪn ɔ:l] – ҳамагӣ

(The answer: 2 miles. It took Mrs. Fine exactly half an hour to reach home from the moment when the dog left the farmyard.)

7. Read the text and retell it in summary. Матнро хонед ва мазмунашро мухтасар нақл кунед.

BUSY HONEY-BEES

An average beehive contains more than 50,000 rooms (cells) and more than 35,000 busy bees. Each bee has its own special job.

Daily, the queen bee lays eggs twice her own weight; the drones, or male bees, mate with young queens, and the workers, or females, act as nurses, guards, room builders, and gatherers of food. These workers make 37,000 trips to find flower nectar, and carry it back to the hive to make 500 grams of honey.

The wings of honey-bees beat at the amazing rate of 200 times per second. That's why bees buzz! Bees use their wings inside the hive to create good air circulation during warm weather. In winter the beating of bees wings keeps the hive warm. Bees buzz, but they don't know it. Most authorities believe that bees are deaf!

THE STATE FARM “HAYOTY NAW”

(Part 3)

Rustam Karimov is a worker on the state farm “Hayoty Naw”. The state farm workers feed cows, pigs, sheep, goats, hens, cocks, ducks, geese and turkeys. Rustam Karimov has a big house and an orchard in which there are many fruit trees and berries. Behind the orchard there is a big kitchen garden where different kinds of vegetables are grown by him and his family. The house stands on one of the small hills. Between the hills there is a valley full of flowers. A small river flows through the valley. Rustam’s hobby is to breed bees and he can tell you an interesting story about their life. Bees live in colonies. Each colony of bees has only one queen. One queen is enough for the colony. If more than one queen is kept alive, swarming will not take place. It is said about a bee, “It gathers honey all day, from every opening flower”.

That is all wrong. Bees don’t gather honey. None of the 10,000 different kinds of bees gathers honey. What they do gather is nectar, which is something quite different. Did you know that?

1. Read and memorise these verbs. Феълҳои зеринро хонед ва дар хотир нигоҳ доред.

WHAT CAUSES WAVES?

Waves are beautiful to look at, but they can destroy ships at sea, as well as houses and buildings near the shore. What causes waves? Most waves are caused by winds blowing over the surface of the water. The sun heats the earth, causing the air to rise and the winds to blow. The winds blow across the sea, pushing little waves into bigger ones.

The size of a wave depends on how strong the wind is, how long it blows and how large the body of water is. In a small bay, big waves will never build up. But at sea the wind can build up giant, powerful waves.

A rule says that the height of a wave (in metres) will usually be no more than one tenth of the wind's speed (in kilometres). In other words, when the wind is blowing at 120 kilometres per hour, most waves will be about twelve metres. Of course, some waves may combine to form giant waves that are much higher. In 1993 the United States Navy reported the largest measured wave in history.

It rose in the Pacific Ocean to a height of thirty-four metres.

FUNNY DONKEYS

Donkeys on the small island of Re, which belongs to France, wear trousers in public. The trousers are taken off before the donkeys go to

sleep. The inhabitants are asked to explain this, but they cannot give reasons for this strange custom.

THE COMMON FLY

How can a fly walk upside down on the ceiling?

On the end of its feet a fly has two claws and two pads, covered with hairs. There is a sticky liquid in the pads. When the fly wants to walk upside down on the ceiling, it presses hard on the pads and the sticky liquid comes from them. Now it can stick to the surface of the ceiling and hold on upside down.

When a fly wants to walk or fly away it presses with its claws; the sticky pad and hairs are released and it can move freely.

GARLIC

Garlic is a native plant of Middle Asia. It was cultivated from the third millennium before the Christian era. It was grown in Ancient Egypt, Greece, Rome and China. Garlic was brought to Russia from Vizantia in the 9th century. It was used as a flavouring for fish and meat dishes as it is nowadays. Garlic is used in medicine; you are advised to chew it when you have a sore throat. Garlic kills every bacterium and helps people not to catch cold.

RADIO AND TELEVISION (Part 1)

Of all the discoveries ever made by man, radio, or wireless, is one of the most wonderful. By means of a wireless, you can speak to someone on the other side of the world. Seated comfortably in your own home, you can listen to music or talks which are broadcast thousands of miles away from you – talks on national and international affairs, on science, history and other educational subjects.

I listen to the wireless almost every evening. Mine is an eight-valve set with an outdoor aerial, which gives splendid results. It has medium, long and short wavelength, and it's quite simple to manipulate. All I have to do is to turn a knob or push a button to tune into the station I require. More marvelous even than radio, is television, which enables us not only to listen to talks, plays and concerts, but also to see what is going on.

- Let's talk about radio and television.

1. Read and memorise these verbs. Феълҳои зеринро хонед ва дар хотир нигоҳ доред.

make – made – made	give – gave – given
speak – spoke – spoken	hear – heard – heard

2. Answer to these questions. Ба саволҳои зерин ҷавоб гардонед.

1. What is the most wonderful discovery ever made by man?
2. By what means do you speak to someone?

3. What can you listen to while seated comfortably in your own home?
4. How often do you listen to the wireless?
5. What do you have to do to listen to the radio?
6. Is television more marvellous than the radio? Say why.

3. Complete these sentences. Цумлаҳоро пурра намоед.

2. I listen . . .
3. All I have to do is . . .
4. It has medium, long and short wavelength . . .

4. Work in pairs, talk about the first paragraph of the text, then talk about the second paragraph. Дунафарӣ оид ба сархатти аввал ва баъд оид ба сархатти дуюм гап занед.

5. Say the text in a chain around the class. Дар бораи матн бо навбат гап занед.

6. Read the following text. Матни зеринро хонед.

PROVE IT YOURSELF

How high is your school (or your house)?

There are many ways in which you can find the height of a building. Here is one which you can use.

You know that tall objects give longer shadows than short objects. Measure the shadow of the building on a sunny day. Then measure the shadow of a yardstick. See how many times this distance goes into the shadow of the building. Multiply the number of times by three and the answer is the height of the building in feet.

For example, if the shadow of the yardstick goes into the shadow of the building twenty times, then the building is 60 feet high. You can find the height of trees and other high objects in the same way.

RADIO AND TELEVISION (Part 2)

Galileo, an Italian, invented the telescope over three hundred and seventy years ago. Because he could see so far with the instrument, he called it a “telescope”, from the Greek word “telescopos”, which means “seeing from a distance”. The “tele-” part of the Greek word means “far”. The English form of the Italian “telescopio” is “telescope”. Following Galileo’s idea, “tele” is used in naming modern inventions which bring close something that is far away. Television brings pictures from far away. The “vision” part of “television” comes from the Latin word “videre” – “to see”, and “video”, which is another word for “television”, is just the Latin word for “I see”.

When radio was invented, the word “broadcast” was used to describe what was transmitted by radio. “Broadcast” means “to scatter abroad”. Now, pictures are sent abroad as well as voices, and a new English word has been made up from “television” and “broadcast” – “telecast”.

Discussion

Advantage and disadvantages of television

1. Read the verbs correctly following the examples, then play game “Say repeat and add”. Феълҳоро аз рӯи намуна дуруст хонед ва баъд бозии “Say repeat and add”-ро иҷро кунед.

EXAMPLES: *[d] lived, spelled*
[t] helped, looked
[id] skated

studied, worked, practised, displayed, treated, formulated, discovered, ended, asked, restricted, showed, started, called, helped, wanted, represented.

2. Read and translate these sentences. Then make up your own three sentences using the same verbs and write them down in the positive, interrogative and negative forms. Ҷумлаҳои зеринро хонед ва тарҷума кунед. Баъдан бо истифодаи ҳамин феълҳо се ҷумла тартиб диҳед ва онҳоро дар шаклҳои саволӣ, инкорӣ ва тасдиқӣ нависед.

2. Which colours is white composed of?
3. Which colours have shorter wavelengths?
4. What can you say about small particles of dust and moisture in the atmosphere?
5. Why does the sky seem blue?

WHY IS THE SKY BLUE?

You know that the sky is blue, but have you ever thought why it isn't white, green or red? Here is the reason. Light from the sun is white. But white is composed of many colours – yellow, orange, red, green, blue and violet. Blue and violet have shorter wavelengths than the light waves of other colours.

Small particles of dust and moisture in the atmosphere bend the blue and violet waves of the sun's rays and spread them all over the atmosphere. Therefore, we see these colours more clearly than other colours in the rays, and the sky seems blue.

wave [weɪv] – мавҷ
wavelength ['weɪvlɛŋθ] – дарозии мавҷ
particles of dust ['pɑ:tɪklz əv dʌst] – заррачаҳои чанг

ray [reɪ] – шуъъ, нур
moisture ['moɪstʃə] – намӣ
bend [bend] – қатъ кардан

TELEVISION (Part 1)

Television now plays such an important role in so many people's lives that it is essential for us to try to decide whether it is good or bad.

In the first place, television is not only a convenient source of entertainment, but also a comparatively cheap one. For a family of four, for example, it is more convenient as well as cheaper to sit comfortably at home than to go out. There is no transport to arrange. They do not have to pay for expensive seats at the theatre, the cinema, the opera and ballet. All they have to do is to turn a knob and they can see plays, films, and operas, not to mention political discussions and the latest exciting football match. Some people, however, say that this is just where the danger lies. The television viewer need do nothing. He does not even use his legs. He takes no initiative. He makes no choice. He is completely passive and has everything presented to him.

- Let's talk more about the topic "Television".

1. Why is the sky blue? Барои чӣ осмон кабуд аст?

2. Read and memorise these verbs. Make up sentences in different verbal tenses. Феълҳоро хонед ва дар хотир нигоҳ доред. Бо замонҳои гуногуни феъл ҷумла тартиб диҳед.

say – said – said

make – made – made

pay – paid – paid

lie – lay – lain

3. Ask as many Wh-questions as you can to get information about these statements. Барои он ки дар хусуси матн зерин маълумоти муфассал дошта бошед, ҷонишинҳои саволи Wh-ро бештар истифода баред.

I shall find . . . He is playing . . . She has made . . .

4. Read and remember this proverb. Ин зарбулмасалро хонед, фаҳмед ва азёд кунед.

. . . that lions are cleverer than tigers and leopards. Among the domestic animals the cleverest are the horse and the dog. These animals learn a lot from the people with whom they live.

. . . that animals can talk to one another?

Of course, they cannot talk like people, but many animals can express joy, fear and anger by their cries. Monkeys, for example, make many different sounds with their mouths, which have different meanings.

The normal temperature for a person is 36.6 degrees centigrade. Here are the average normal temperatures of some animals: cat, 40.0°; cow, 38.3°; dog, 38.6°; horse, 37.8°; pig, 39.2°; sheep, 39.1°.

10. Do you know the people in the photos? In what films did they act? What do you know about them? Оё ин чехраҳоро мешиносед? Ин ҳунарпешагон дар кадом филмҳо нақш бозидаанд? Дар бораашон чӣ медонед?

11. Discuss in pairs. Дунафарӣ суҳбат кунед.

1. Why are the actors above so popular?
2. Which actor mentioned do you like most? Explain why.
3. Do you have your favourite actor actress?

TELEVISION (Part 2)

Television, people often say, informs one about current events, the latest developments in science and politics, and presents an endless series of programmes which are both instructive and stimulating. The most far away countries and the strangest customs are brought into one's living room. People can say that the radio does this just as well; but on television everything is much more living, much more real. Yet here again there is danger. We get to like watching TV so much that it begins to dominate our lives. A friend of mine told me the other day that his television set had broken down and that he and his family had sadly found that they had much more time to do things and that they could really talk to each

other again. It makes one think, doesn't it? There are many arguments for and against television. The poor quality of its programmes is often criticised. I think we must understand that television in itself is neither good nor bad.

Television is as good or as bad as we make it.

*(From A New Way to Proficiency in English by
John Len Cook, Amorey Gethin, Keith Mitchell)*

1. Read, translate and remember this proverb. Ин зарбумасалро хонед, тарчума кунед ва дар хотир нигоҳ доред.

Never put off till tomorrow what you can do today.

4. Retell the text “Television” (Part 1) following this outline plan. Матни “Television” (Қисмати 1)-ро вобаста ба нақшаи зерин нақл кунед.

- a) The role of television in people's lives.
- b) Television is a source of entertainment.
- c) Preparation for watching TV.
- d) A passive viewer.

5. Read the text and answer these questions using more than one sentence for each one. Матнро хонед ва ба ҳар як саволи зерин бо ду-се ҷумла ҷавоб гардонед.

1. What does television inform people about?
2. Why is television more living and real than radio?
3. What is your opinion about television?

6. Read and copy these sentences. Underline the complex object. Ҷумлаҳои зеринро хонед ва тарҷума кунед. Ба зери пуркунанда хат кашед.

EXAMPLE: I saw him come into the room.

They saw the child cross the road. We saw the man leave the house. Lola saw us go along the road. I heard him speak at the meeting. The woman heard the baby cry. We watched her water the flowers. The grandmother watched Ann do her homework. She let his hand touch her arm. The teacher made us write this exercise again.

7. Read the text and retell it in summary. Матнро хонед ва мазмунашро мухтасар нақл кунед.

MORE ABOUT ENGLISH SEASONS

The weather depends on the season and the climate of the country. The Russian winter is famous for its sunny, frosty days. Winter in England is not very cold. Very often snow melts when it falls. In England it doesn't snow much. It often rains, even in winter. The almost permanent mistiness of the atmosphere in England is something that often surprises foreigners. In industrial areas, in autumn, the mist lies thick all day. One peculiarity of an English autumn is mist, another is its long duration.

permanent ['pə:mənənt] – доимӣ	– areas ['e(ə)rɪə] – мавзеъ

ROGHUN HYDRO-POWER PLANT

Not far from Dushanbe on the Vaksh river, Rogun hydroelectric station has been built. It is the most powerful station in Central Asia. It was constructed under very difficult conditions. As there was no flat plain, the station has been built inside the mountain. All the roads to the station run through solid rock. The town of Rogun is built in the mountains on the high hills. Only high buildings are erected here because of the lack of flat ground. About 16-18 thousand inhabitants live here. The town looks like a peninsula which is washed by the waters of the Roghun reservoir.

The town was built by different nations of our country and it looks smart.

A: Hallo, Karim! I haven't seen you for ages. Where have you been all this time?

B: I have just returned from Roghun.

A: Did you see Roghun Hydroelectric Station?

B: Of course! It is built in the mountains.

A: Really! How interesting!

5. Read this text, translate some sentences and talk about it. Матро хонед, якчанд ҷумларо тарҷума ва нақл кунед.

No one knows who started the seven-day week. But it is thought that the week has seven days because there are seven heavenly bodies in our solar system that can be seen without a telescope. These are the Sun, the Moon and five planets: Mars, Mercury, Jupiter, Venus and Saturn. In many ancient religions these seven heavenly bodies are very important. People worshipped them and believed that each ruled over a particular day. Thus there were seven days from one sun's day to the next sun's day. This period later came to be called a week.

The week might have had more than seven days, however, if people in ancient times had known about Uranus, Neptune and Pluto. But none of these planets can be seen without a telescope.

6. Answer to these questions using no less than two sentences for each one. Ба ҳар як савол бо ду-се ҷумла ҷавоб гардонед.

1. Where has Roghun hydroelectric station been built?

2. Is it a powerful station?

3. Where is the station situated?
4. Say some sentences about the town of Roghun.

7. Complete these sentences. Ҷумлаҳоро пурра кунед. It is the most. . .

SOUND

Sound travels through the air in the form of waves. Sound waves are sent out from any object that vibrates or swings to and fro. If there are between 20 and 20,000 swings each second, we can hear the sound. The faster a thing vibrates, the higher the pitch of the tone it produces. The pitch of the tone also depends on the size and shape of the vibrating object.

If you strike the side of an empty glass, it vibrates and gives off a musical tone. If water is poured into the glass, it gives a different tone because the amount of air that can vibrate freely has been reduced.

Sound propagates not only in the air but also in other bodies. Different bodies conduct sound in different ways. Most metals, wood, gases and also liquids are good conductors. Soft and porous bodies are poor conductors.

Thus sound propagates in all resilient bodies, solid, liquid and gaseous, but it cannot propagate in a vacuum.

- Let's talk about different sounds

1. What informations have you got about atom? Дар бораи ҳаста (атом) чӣ маълумот доред?

2. Read, translate and learn this proverb. Ин зарбулмасалро ҳонед, тарҷума кунед ва дар хотир нигоҳ доред.

MORE ABOUT LONDON (Part 1)

London is the capital of Great Britain, and a capital city of the United Kingdom. It is the largest city in Europe and one of the oldest in the world. The old Celts gave it its name; the Romans made it the centre of their new colony; the Germanic invaders tried to burn and destroy it; the victorious Normans made it the capital of the country. In London, past and present are so mixed together that they cannot easily be separated and when you are in London you see the past in the present and present in the past.

The oldest part of London is called the City. In the City the streets and pavements are very narrow and the traffic is very heavy on weekdays. That is because the most important London firms and banks have offices there. But at weekends the City is almost dead.

9. What can you say about London as the capital? Шумо дар бораи Лондон, ҳамчун пойтахт, чӣ гуфта метавонед?

10. What can you say about the City? Шумо дар бораи он, Ҳамчун шахр, чӣ гуфта метавонед?

THE ELECTRIC LIGHT-BULB

An electric current is the free flow of electrons through a wire. Electrical wire is made of copper and electrons easily pass through it.

But if they come to a different metal whose conductivity is not so good as that of copper, they bump against the atoms of the metal. The friction arising from the bumping makes the metal very hot.

This happens in electric stoves and irons where the wire is made of nichrome. The nichrome becomes very hot when electricity flows through it. The metal covering which protects the nichrome from dirt becomes hot, too, and cooks the food or warms the room.

In an electric light-bulb, a very fine filament of wire made of tungsten is used. As the current flows, the electrons bump into the tungsten atoms, and become hot. The hotter they become, the quicker they move and bump, and become hotter still; until the wire begins to glow. The glow is the result of the electrons bumping about and causing little sparks, which we see as light. The electrons do not burn up or melt the wire, although it is very thin, because there is no oxygen in the bulb, so things cannot burn in it.

- Let's talk about the topics "The electric light-bulb" and "London".

MORE ABOUT LONDON (Part 2)

The most fashionable and the most expensive part to live in is the West End. It is situated between the City and Hyde Park. The City and the West End are the heart of London: they are the parts which everybody who comes to London must see and wants to see, because they are more interesting than any other part of London. All the most interesting buildings, shops and offices are situated here.

The Tower of London, the Bank of England, the Mansion House, where the Lord Mayor lives, the Law Courts, and many interesting old churches are situated in the City. The Houses of Parliament with Big Ben, Westminster Abbey, the National Gallery and many theatres and good shops are in the West End.

Lord Mayor [lɔ:d meə] – мири шаҳр

WATER

(Part 1)

Water is one of the commonest of all substances, and without it life would be impossible. The seas and oceans cover about seven tenths of the Earth's surface. But water is also contained in the soil, in the atmosphere and in all living things. More than half of the human body consists of water, which also forms a large part of the food we eat, especially vegetables and fruit. Man can live for nine days or more without food, but we cannot live for many days without water.

Water exists as a substance in three states: ice, which melts at 0 degrees centigrade, liquid water, and steam, which is formed when water boils at 100 degrees centigrade.

- Let's talk about the topic "Water".

1. Read, translate and memorise this proverb. Ин зарбулма-салро хонед, тарҷума кунед ва дар ёд нигоҳ доред.

After dinner sit a while, after supper walk a mile.

2. A mechanical pyrometer works on the principle of expansion of metals by heat.

3. No question is more important now than the question of preserving lasting peace.

4. The kind of television used in science and industry differs from the kind used for entertainment.

5. Answer to these questions. Ба ин саволҳо ҷавоб гардонед.

1. What is water?

2. How much of the Earth's surface is covered by seas and oceans?

3. How much of the human body consists of water?

4. How long can a man live without food and water?

6. Say the text in a chain around the class. Матнро бо навбат нақл кунед.

7. Read, translate and retell this text. Матни зеринро хонед, тарҷума ва нақл кунед.

MORE ABOUT LONDON (Part 3)

London has many bridges over the Thames, more than twenty, but the most interesting of them all is Tower Bridge situated near the Tower of London.

The Tower of London is an old castle with white walls, high towers, small windows and large gardens. Many important people, among them two wives of Henry VIII, were imprisoned and beheaded there.

The East End is the poorest district. There are many factories, workshops and docks there. Most of the workers live in this part of London.

---	--

WATER (Part 2)

Water differs from all other liquids in that it expands when cooled from 0° centigrade, contracts when heated from 0° to 4° centigrade and reaches its maximum density at 4° centigrade. No other liquid possesses this property. Pure water is rarely found in nature. This is because water is able to dissolve so many substances from the air, the soil and the rocks. The saltiness of sea water is caused by the mineral substances which are dissolved from the Earth's surface by rivers and carried down to the sea.

The sun's heat causes the surface sea water to evaporate, or change into vapour, leaving behind the salt and other minerals.

This explains why the seas are so much more salty than the rivers flowing into them.

- Let's practise verbs and asking questions, then continue to study the topic "Water".

1. Read, translate and memorise this proverb. Ин зарбулма-салро хонед, тарҷума кунед ва дар ёд нигоҳ доред.

RUBBER

(Part 1)

We all know what rubber is. We have seen it on the wheels of cars; we have used it to rub out mistakes in drawing; we have played games with rubber balls. When we press a piece of rubber, we change its shape. But as soon as we stop pressing, the rubber springs back to its first shape, we therefore say that rubber is elastic.

Rubber was first used to make rubber balls. In 1492, Columbus sailed from Spain and discovered America. One of the many strange things which he and his men saw in America was a game played with rubber balls. They noticed that the rubber balls bounced much better than the balls they used in their own country. When they sailed home again, they told their friends that the balls were made from the gum of a tree.

1. What is kind of production is rubber?
2. Where is rubber used for?
3. What was the first use of rubber for?

1. Read and memorise these verbs. Use them to make up as many sentences as possible. Ин калимаҳоро хонед ва дар ёд доред. Бо ин калимаҳо чанд ҷумла тартиб диҳед.

RUBBER (Part 2)

Hundred of years passed before rubber was used in Europe and other parts of the world. Small pieces of rubber were brought to Europe, and kept by people who liked to collect strange things; but no one thought

that rubber could be useful. Then an artist found out that rubber would rub out pencil marks. That was one of the first uses of rubber, and that is how it came to be called “rubber”. Rubber trees grow only in countries where it is very hot or very damp. These countries are near the equator so it was there that men went out to hunt for rubber trees. It was not easy to find them.

In those hot damp lands, trees of many kinds grow so close together that it was difficult to travel through the forests.

The men who were hunting for rubber trees found them growing wild in South America, in Central America, and in West Africa. Nearly all the world’s rubber comes from the great forests of America and West Africa.

MILK AND WATER

Cup A contains 30 spoonful of milk. Cup B contains 30 spoonful of water. A spoonful of milk is taken out of Cup A and put into the water in cup B. After the mixture has been stirred thoroughly, a spoonful of it is put into the milk in cup A.

Is there then more milk in the water than there is water in the milk? Or is there more water in the milk than there is milk in the water?

(Answer: *There is more milk in the water than there is water in the milk.*)

a spoonful ['spu:nfʊl] – қошуқи пур
a mixture ['mɪkstʃə] – маҳлул
thoroughly ['θʌrəli] – муфассал, пурра

4. Read the text “Rubber” and find the answers to these questions. Матни “Rubber”-ро хонед ва ба саволҳои зерин ҷавоб ёбед.

1. Who found out that rubber would rub out pencil marks?
2. Where do rubber trees grow?
3. Where are these countries located?

5. These sentences are not true. Rewrite them correctly. Ин ҷумлаҳо ба қоида мутабиқат намекунанд. Онҳоро аз нав ва дуруст нависед.

1. Rubber was used in Europe and other parts of the world in the fifteenth century.
2. It is called “rubber” because it is elastic.
3. Rubber trees grow everywhere.
4. It is easy to find rubber trees.
5. Nearly all the world’s rubber comes from England and Europe.

A FALL FROM THE SKY

For a while they followed the line of the coast. A fisherman in the bay looked up and saw them; so did a shepherd. A ploughman halted his oxen and stood staring. And each of them thought, These are not men, but god's.

Then they flew over the sea. Soon they were past Delos, the rocky islet that the sea-god, Poseidon, had made from the waves.

They flew through the night, and Icarus did not climb to the stars. But in the morning he rose on his wings and flew towards the sun.

When Daedalus looked behind him, the boy was not there. He looked up and saw far above him a black speck in front of the burning sun. Icarus had flown too near. In the hot rays the wax began to melt. He shouted for his father. He beat the air with his bare arms, but without wings they could not hold him. He dropped out of the sky, straight as a stone. He was still shouting for his father when the sea closed over his lips.

"Where are you, Icarus?" cried Daedalus. "Where are you?"

He landed on the shore and took off his wings. There were feathers everywhere, some floating on the sea, some lying in the sand.

Soon the body was washed up at his feet. Gently he picked it up and buried it between the cliffs under an oak tree.

How much does a man weigh?

A man weighs 60 kilograms plus one-third of his weight. How much does he weigh? (The man weighs 80 kilograms.)

HOW DID THEY CARRY THE BAGS?

A man had to walk to the station four miles away from his house.

He had two bags of equal weight, but he could not carry them to the station by himself, because they were too heavy. His brother and his son wanted to carry the bags to the station for him, but his brother was an old man and the boy was not strong enough. Anyway, the man wanted to take his own share, too. When they started off, the man's brother took one bag and his son took the other, while the man worked out the plan to share the burden equally among the three of them.

Answer: The boy carries a bag one mile and one-third. Then he gives it to the man, who will carry it to the station. The man's brother carries the other bag two miles and two-thirds and then gives it to the boy, who will carry it to the station. So each of them will carry a bag two miles and two-thirds.

5. Talk about “Spring” in a chain around the class and then continue in pairs. Use these words to help you. Оид ба фасли баҳор бо навбат гап занед, сипас дунафарӣ суҳбатро давом диҳед. Калимаҳои зеринро истифода баред.

What do you know about the sky?

Here are eight statements about stars and planets. Some of them are true and some are not. Take a sheet of paper and write down your answers. Then check them against the answers given below.

1. There are exactly 5,483,601 stars.
2. About half the stars can be seen without a telescope.
3. Twenty two planets have been discovered so far.
4. Gravity holds the Earth in its orbit around the sun.
5. Saturn, like the Earth, has one moon.
6. The Sun's rays strike the Earth at different angles during different seasons of the year.
7. The Sun is the second nearest star to the Earth.
8. Jupiter is much nearer to the Sun than Mercury.

CONTINUED

1. Not true. There are many stars which we cannot see. Nobody knows how many stars exist. 2. Not true. Only about 2,000 stars can be seen by the naked eye; millions more can be seen with a telescope. 3. Not true. There are only nine known planets in our solar system. 4. True. 5. Not true. Saturn has nine moons. 6. True. 7. Not true. The sun is the star nearest to the Earth. 8. Not true. Mercury is the planet nearest to the sun.

THE GULF STREAM

It may be new to you, but the Gulf Stream in the Atlantic Ocean is a distinct river of warm water and can be clearly seen from a plane. It can even be photographed. The Gulf Stream is at least thirty degrees warmer than the ocean it flows through. It is so warm that along the north-eastern coast of the United States you can go swimming in the Gulf Stream – even though an iceberg may be floating nearby!

Discussion

- What do you prefer, television, radio or cinema?

1. Review the proverbs you have learned. Зарбулмасалҳоро азёд кунед.

Never put off till tomorrow what you can do today.
Every cloud has a silver lining.

2. Write these verbs in the short form. Ин феълҳоро дар шакли кӯтоҳ нависед.

I had not. I was not. I have not. She had not. We could not. They will not.

3. Work in pairs. Read and act this dialogue. Then make up your own dialogue. Дунафарӣ кор кунед. Муколамаи зеринро хонед ва иҷро кунед. Баъдан муколамаи худро тартиб диҳед.

A: Oh, how steep the mountain is!

B: Yes, very steep, isn't it?

C: Terribly steep.

4. Solve this problem. Масъалаи зеринро ҳал кунед.

A SQUARE AND A TRIANGLE

Take a square piece of paper. Then try to fold it so as to form the largest possible equilateral triangle. A triangle in which the sides are the

same length as the sides of the square, as you see in the picture, is not the largest possible.

(a) (b) (c)

(Answer: Fold the square in half and open it out (a). Fold the corner D over so that D lies on FE (b). Mark this point X and open the paper out (c). Fold along DX and CX. You now have the largest equilateral triangle that you can make out of the square of paper.)

- Let's discuss these questions.

1. Talk about the time when snow covers the fields (the ground, the trees) in your region. If you have little or no snow, say so. When does ice cover the rivers (the lakes, the sea)?

2. What do you expect when clouds cover the sky?

3. How many times a day do you listen to the radio? What do you like to listen to? When do you like to listen to music and to sports news? When do you turn the radio on and when do you turn the radio off?

AT THE POST OFFICE (Part 1)

I regularly receive letters, postcards and parcels, and sometimes telegrams too. I collect my letters poste restante at the post office. I call at the post office twice a day, for there are five collections and three deliveries daily. The procedure is as follows. I go up to the counter that has the notice "Letters Poste Restante, Stamps, Postcards, Forms on Sale", I ask the clerk if there are any letters for me. If there is a parcel addressed to me I'm given a special form to fill in. I write my name and address on it, go to Parcel Post and say that I am the addressee. The clerk asks for my passport, checks it against the form, returns my passport and hands me the parcel.

When I want to send a letter, I put the letter into an envelope, address it, buy a stamp at the post office, stick the stamp on the envelope and drop it into a letterbox (pillar box). If I want to send a letter by airmail and registered post, I give it to the clerk who weighs it, sticks on the stamp, cancels it and writes out a receipt.

- Let's talk about the topic "At the post office".

1. Read and translate the words and sentences. Then make up your own sentences. Калима ва ҷумлаҳои хонед ва тарҷума кунед. Сипас ҷумлаҳои худро тартиб диҳед.

a) day – daytime – daily

EXAMPLE: He works everyday, from nine to five. She works in the daytime, not at night. We have a daily newspaper.

b) friend – friendly – unfriendly – friendship

EXAMPLE: He is a very good friend. Some of the people were very friendly to him; others were unfriendly. I am very pleased to have your friendship.

2. Say these time expressions. Матни зеринро бо овози баланд хонед.

in the morning, noon, in the afternoon, at midnight, at night

Now match each expression with a time.

8 a.m.; 16.00; 12.00 GMT (Greenwich Mean Time); 03.00; 10.00;

BRITISH MEALS LONG AGO

Two hundred years ago, meals in Britain were different from today. The courses were not so clearly separated into meat and sweet courses; puddings were large: meat puddings, and even plum pudding used to have meat in it.

All the different foods were put on the table at once.

For example, the first course of the dinner given by a priest in 1774 consisted of a “large cod, mutton, some soup, a chicken pie, pudding and roots.”

The second course was pigeons and asparagus, veal with mushrooms, roasted sweetbreads, lobster, apricot tart and sweet jellies.

- Let's talk about the topic “Meals”.

1. Make up your own sentences like these examples. Ба мисли намуна ҷумлаҳо тартиб диҳед.

- a) We can go there either by train or by plane.
- b) We can go there neither by bus nor by lorry.

2. Work in a group of three and speak about text “At the post Office”. Дар гурӯҳи сенафарӣ оид ба матни “At the post Office” суҳбат кунед.

3. Read and translate these sentences. Then work in pairs to make a dialogue. Чумлаҳоро хонед ва тарҷума кунед. Сипас бо ҳампаҳлӯягон муколама тартиб диҳед.

Have some more salad! Help yourself to some more fish! What about another cup of coffee? I have never tasted such a nice cake! Let’s take pudding for the second course. I am fond of fruit pudding.

4. Make up sentences: write 3 sentences on each of the tables. Супориш: мувофиқи ҷадвалҳои зерин се ҷумла тартиб диҳед.

A.

MEALS (Part 1)

There are four meals a day in an English home: breakfast, lunch, tea and dinner (supper).

Breakfast is the first meal of the day. It is at about 8 o'clock in the morning, and consists of porridge with milk, marmalade or jam. Some people like to drink tea, but others prefer coffee. Instead of porridge they may have fruit juice or they may prefer biscuits.

The usual time for lunch is 1 o'clock. This meal starts with soup or fruit juice. Then follows some meat or poultry with potatoes – boiled or fried – carrots or beans. Then a pudding follows. Instead of the pudding people may prefer cheese and biscuits. Last of all coffee – black or white. English people often drink something at lunch. Water is usually on the table. Some prefer juice or lemonade. Write a composition on “My breakfast and lunch”.

- Let's continue with the topic “Meals”.

1. Read and translate these verbs. Then form the adjectives.
Феълҳои зеринро хонед ва тарҷума кунед. Баъд аз ин феълҳо сифат тартиб диҳед.

V' (verb) + able = adjective

EXAMPLE: read – readable

change – . . . ; recognise – . . . ; understand – . . . ;

forget – . . . ; distinguish – . . .

2. Complete the sentence with the correct word. Ҷумлаҳои бо калимаи дуруст пурра намоед.

1. This book is easy to read. It is . . .
2. I can't forget this film. It is . . .
3. You can easily understand this text. It is quite . . .
4. These projects are easy to distinguish. They are . . .

3. Answer the questions, using the words in brackets. Бо истифодаи калимаҳои дарқавсбуда ба саволҳо ҷавоб гардонед.

1. What must you do at home? (do lessons, help Mother, keep the books in order, wash the floor, go to bed at the right time, get up at 7 o'clock, do morning exercises)

2. What needn't pupils do on holiday? (go to school, do lessons, get up early)

4. What were British meals long ago? Вақтҳои пеш ҳуҷраи мардуми Британия чӣ буд?

5. Read and retell this text in summary. Матни зеринро хонед ва мазмунашро мухтасар нақл кунед.

ANIMAL SECRETS

Many baby animals are able to walk almost from the moment they are born (take, for example, the young deer).

Why are they given this wonderful ability to walk so soon? Because they feed on grass and eat a lot of it, so they must be able to move from place to place.

Young birds, of course, stay in their nests. Their food is brought by the parent birds, so they do not have to shift until they are ready to fly. Lions and wolves have dens to live in. They go out, catch food and bring it back.

A baby bat, as soon as it is born, clings to its mother and they move together.

Kangaroo babies are carried in their mother's pouch.

LESSON 63

Competence: Pupils should read the given text accurately, understand the meaning of the text and retell it.

Салоҳият: Хонандагон бояд матнҳои додашударо беҳато хонанд, маънои онро фаҳманд ва нақл карда тавонанд.

---	---

MEALS (Part 2)

Dinner is the fourth meal of the day. The usual time is about seven o'clock, and all the members of the family sit down together.

Dinner usually consists of soup, fish or meat with vegetables – potatoes, green beans, carrots and cabbage – sweet pudding or fruit salad and ice cream or cheese and biscuits. Then, after talking together, they have black or white coffee.

This is the order of meals among English families. But a lot of people have dinner in the middle of the day instead of lunch. They have tea a little later, between 5 or 6 o'clock, and then in the evening, before going to bed, they have supper. So the four meals of the day are either breakfast, dinner, tea, supper or breakfast, lunch, tea, dinner.

Let's continue to study the topic "Meals".

1. What animal secrets do you know? Шумо кадом хислатҳои ҳайвонотро медонед?

2. Solve this problem. Ин масъаларо ҳал кунед.

Farmer Smith is carrying one bag of potatoes. Farmer Jones is carrying five bags. All bags are the same size but Smith's bag is fifty times heavier than the bags which Jones is carrying. Why?

(Answer: Farmer Jones is carrying empty bags.)

3. Read these nouns and form the adjectives. Then translate them and make up your own sentences. Исмҳои зеринро хонед, онҳоро ба сифат баргардонед ва ҷумла тартиб диҳед.

n. (noun) + ful = adjective

EXAMPLE: care + ful = careful

power, play, fruit, beauty, wonder, use, peace, help, hope, law

4. Read and translate these sentences. Then make up your own sentences using the verbs below. Ҷумлаҳои зеринро хонед ва тарҷума кунед. Сипас бо феълҳои зерин ҷумлаҳо тартиб диҳед.

must: to be to (am to, is to, are to, was to, were to) must: to have to (has to, have to, had to)

1. Helen is to meet Jane at this station.
They are to go to the country.
We were to visit a museum.
I was to return the book to the library.
2. Tom has to stay at home.
Ann has to buy bread and milk.
We have to cook veal with potatoes.
I had to make a plum tart.

5. Work in pairs. Read and act this dialogue. Then make up your own dialogue. Дунафарӣ кор кунед. Муколамаи зеринро хонед ва иҷро кунед. Сипас муколамаи худро тартиб диҳед.

A: What shall we have for dinner?

B: Let's have some salad, clear soup, and fish with boiled potatoes.

A: And what about the sweet?

B: I think a glass of orange juice will be just the thing for dessert.

6. Read the text carefully and talk about it. Матнро бодиққат хонед ва онро нақл кунед.

7. Write a composition on "My dinner and supper". Дар мавзӯи "My dinner and supper" иншо нависед.

8. Read text and answer the following questions. Матнро хонед ва ба саволҳо ҷавоб гардонед.

AT THE TABLE (Part 1)

You are invited to your friend's birthday party. After the greetings, congratulations and introductions that are usual at any gathering, the guests are told to sit down at the table.

Hearing this, the gentlemen should not hurry to take their places. They must wait, standing, until all the ladies have taken their seats at the table and they should help them to do so. While at the table you should observe some rules if you don't want to look strange.

Answer to these questions. Ба саволҳо ҷавоб диҳед.

1. When are the guests told to sit down at the table?
2. Should the gentlemen hurry to take their places?
3. What must they do?
4. What should the guests observe?

host [həʊst] – мизбон	bread [bred] – нон
to lean back [tə ɪːn bæk] – ба пушт	elbows [ˈelbəʊ] – оринҷ
	knife [naɪf] – корд

AT THE TABLE (Part 2)

Here are some table manners.

Never put your elbows on the table while you are eating.

If you want something, you shouldn't reach for it across your neighbours. You should simply ask one of them to pass you what you want. But don't forget to say thank you for this or any other politeness shown to you.

Bread is taken from the bread plate by hand and not with a fork.

Don't use a knife for fish or cutlets and never put a knife in your mouth or close to your face, because you could cut yourself and your hosts will have to send for the doctor.

Remember, you shouldn't push back your plate when you have finished eating or lean back saying "I'm through." The plate stays where it is and the fact that you've put your spoon or fork down shows that you have finished.

- Let's talk about the topic "Table manners".

CLOTHES

Ann says, “I am very pleased to talk about clothes. I like to have pretty dresses of the latest fashion and style, well-cut, tailored costumes, nylon underwear, nylon stockings and well-made shoes.

In the morning I generally wear a blouse and skirt or a jumper and skirt, especially in winter. In spring or summer I like something lighter, and I wear a cotton or linen frock and a hat to match. In the evenings I like to dress for dinner, especially if I am going out to a theatre or a dance. My favourite is a black evening dress, beautifully cut. With this dress I wear platinum and pearl earrings and a pearl necklace.

For tennis I wear a short white linen dress, and for the seaside a beach dress.”

WHEN INVITED TO AN AMERICAN HOME...

Here are a few tips to help you know how to behave at an American dinner. First of all, you should always arrive on time. Even 15 minutes late is impolite! If you are going to be late, call your host or hostess ahead of time. It is always nice to bring your host or hostess something such as flowers, but it is not necessary.

When in the dining room, don't take a seat until host or hostess shows you where to seat. Unfold the napkin that is beside your plate, and put it on your lap. Bowls of food are usually passed from person to person around the table. People serve themselves.

Before eating, someone may say grace, or prayers. During grace you should bow your head and remain silent. You can start eating when the host or hostess does. In America it is considered rude to begin eating before everyone has been served.

Take part in conversation, but don't talk with your mouth full. If someone asks you a question while your mouth is full, finish chewing before you answer the question.

Do not reach in front of someone for a dish, the salt, or the pepper. Simply say, "Please pass the salt." Always compliment the cook by saying, "The meal is delicious/wonderful!" When dinner is over, help clear the dishes off the table. When you are leaving, thank your host or hostess by saying, "Thank you for a nice evening. I enjoyed it very much."

Americans often send a thank-you note afterwards.

- Let's talk about "Some points of etiquette".

1. Make up sentences following the example. Дар асоси намуна ҷумла тартиб диҳед.

EXAMPLE:

The collective-farmers worked in the field. We saw them.

We saw the collective-farmers work in the field.

1. The school children planted some trees. The man saw it.
2. Ann watered flowers. The woman saw it.
3. Somebody sang in the park. I heard it.
4. The invaders burnt down the village. The old man saw it.
5. The doctor touched his leg. The boy felt it.

2. Work in pairs. Read and act this dialogue. Then make your own dialogue. Дунафарӣ кор кунед. Муколамаро хонед ва иҷро кунед. Сипас муколамаи худро тартиб диҳед.

A: I say, Pete, what made you buy that suit?

B: Why? Don't you like it?

A: It's too tight in the shoulders and rather loose in the waist.

B: Why didn't you tell me that in the shop when you saw me buy it?

3. Make up questions to find out which shop we buy these foods in. Савол тартиб дода, фаҳмед, ки мо ин хӯрокворихоро аз кучо мехарем.

pike, bread, sugar, sausage, oil, herring, plums, buckwheat, fish, etc.

4. Work in pairs. Read and act this dialogue. Then make up your own dialogue. Дунафарй кор кунед. Муколамаро хонед ва ичро кунед. Сипас муколамаи худро тартиб диҳед.

A: Yes, madam?

B: Have you got any herring, Mrs. Todd?

A: Certainly, madam. Which would you like: fresh, smoked or salted?

B: Smoked, please.

A: Here you are.

5. Read, translate and memorise these recommendations. Тавсияҳои зеринро хонед, тарҷума кунед ва дар хотир нигоҳ доред.

SOME POINTS OF ETIQUETTE

1. One should not follow the latest fashions blindly.
2. A girl should adapt a fashion to her own personality. She should not adapt herself to the fashion whether it suits her or not.
3. Clothes should be neat, well-made, in good condition but not too conspicuous.
4. Do not wear clothes that need constant arranging.
5. Accessories should always be in harmony with the dress and the wearer.
6. A woman does not take off her gloves to shake hands no matter when and where, and never apologises for wearing gloves when shaking hands with a woman. A man does not shake hands with a woman without first taking off his right glove. In the street, if he cannot free his left hand to take his right glove off, he says, "Excuse my glove".
7. When hosting a party, the hostess should be less elaborately dressed than her guests.

ABOUT TAJIK NATIONAL HOLIDAYS

To my mind, the main holidays in Tajikistan are Navruz, Sada, Mehrgon, Sayri Guli Lola. Navruz is celebrated by the Tajiks in spring. It's held on the 21st and 22nd of March. They try to put away bad and gloomy thoughts, to make their thoughts and deeds noble and honest. There are a lot of people in the streets on these days. Tajik girls wear bright national dresses. They try their best not to swear and use bad language, but to forgive each others. Some families cook sumalak from night till morning.

As for Sada, one can say that it's an ancient national holiday. People celebrate it in last month of winter season. Sada means fifty days and fifty nights or one hundred days before Navruz Holidays. On those days people try to plant different kinds of trees. But Mehrgon usually celebrated in autumn. It looks like as a Thanksgiving day. On that day peasants show their harvest of fruits and vegetables. Then comes another great holiday Sayri Guli Lola. On that day people plant flowers especially tulips with different colours in the streets and in their yards.

My dear children, try to observe these national holidays!

- Let's review the topic "Clothes and holidays".

1. Work In pairs, ask and answer these questions. Ҳамроҳ кор кунед. Савол диҳед ва ба саволҳо ҷавоб гардонед.

The four cyclists (A curious problem)

Each of four cyclists rode round a different circle. One at the rate of six miles an hour, the third at the rate of twelve miles an hour, the fourth at the rate of fifteen miles an hour. They started off at twelve o’clock at the centre. They agreed to ride until all met in the centre for the fourth time. The distance round each circle was one-third of a mile.

When did the four cyclists meet for the fourth time?

An answer: The cyclists A, B, C, D could ride one mile in $\frac{7}{8}$ th, $\frac{1}{9}$ th, $\frac{1}{12}$ th and $\frac{1}{15}$ th.

LAYING THE TABLE

First, I spread out the tablecloth and then I put out table-mats to protect the table. From the drawer in the sideboard I take all the cutlery – a fish-knife and fork for the fish, a large knife and a fork for the meat, a small knife for the butter, and a fruit-knife for the dessert. Then there is a pudding spoon and a spoon for the sweet, and a soup spoon for the soup.

I put the knives and the soup spoon on the right hand side and the forks on the left, except the pudding spoon and fork which I put across the top.

PROVERBS

Art is long, life is short.	Санъат абадисту умр – кӯтоҳ.
Claw me and I'll claw you.	Аз як даст садо намебарояд.
Don't make a mountain out of a molehill.	Аз паша фил масоз.
It is better to die standing than to live kneeling.	Марг беҳ аз расвой.
Be slow to promise and quick to perform. Promise little but do much.	Ваъда додӣ, вафо бикун, қавл додӣ, иҷро бикун.
Look before you leap.	Аввал бубин ҷойи худ, баъд бимон пойи худ.
Many a mickle makes a nickle. Make a little makes a nickel.	Қатра-қатра чамъ шавад, дарё шавад.
Neither fish, nor flesh.	На қаҳ, на дон. Шавад – обӣ, нашавад – лалмӣ.
No pain, no gain.	Бе ранҷ ганҷ муяссар намешавад.
There is no smoke without fire.	Дуд бе оташ намешавад.
After rain comes fair weather.	Поёни шаби сиёҳ сафед аст.
It's better to do well than to say well.	Меҳнатро бисёр бикун, гапро кам.
To know everything is to know nothing.	Бисёр доништан нишонаи доной нест.
Fortune favours the brave.	Майдон аз далер аст.

Better late than never.	Дер ояду шер ояд.
Actions speak louder than words.	Кам гӯю бисёр бикун.
Never put off till tomorrow what can be done today.	Кори имрӯзаро ба фардо магузор.
It is not the gay coat that makes the gentleman.	Либоси зебо ақлу одоби инсон нест.
A tree is known by its fruit.	Аз гандум гандум бирӯяд, аз ҷав ҷав.
Nothing ventured, nothing gained.	То таваккул нақунӣ, чизе ба даст наёри.
Everything is good in its season.	Ҳар кор вақту соат дорад. Осиёб – бо навбат.
Strike while the iron is hot.	Оҳанро дар гармиаш меқубанд.
Cut your coat according to your cloth.	Ба кӯрпаат нигоҳ карда пой дароз бикун.
Hunger is the best sauce.	Гӯрпарҳез табобати беҳтарин аст.
Live and learn.	Рӯз бину аз рӯзгор омӯз.
There is no place like home.	Хоки Ватан аз мулки Сулаймон беҳтар.
Always in a hurry, always behind.	Кори саросемагӣ боиси ханда аст.
A good deed is never lost.	Меҳнат бикунӣ, роҳат бубинӣ.
That's another pair of shoes.	Ин – гапи дигар.
Good health is above wealth.	Тани сиҳат – гавҳари ноёб.
